| **Registration holder** | Robert Worgan Furzer |

## Recreation remotely piloted aircraft registration or authorisation details

| Manufacturer and model | Serial number / registration mark | Weight class | Expiry date |
|---|---|---|---|
| DJI Mavic Air | 0K1DF1C2ADUTM | More than 2 kg but not more than 25 kg | 28 Feb 2023 |
| DJI Mavic Pro | 0K11234567890T | More than 2 kg but not more than 25 kg | 28 Feb 2023 |

Note:

- An aircraft mentioned in this certificate is registered in Australia under the Civil Aviation Safety Regulations 1998 and bears an Australian registration mark or serial number, but not an Australian nationality mark. Before operating the aircraft outside of Australia, the person holding this certificate should ensure that the operation is compliant with foreign civil aviation legislation and operating rules and enquire with the National Aviation Authority of the jurisdiction in which the operation is intended whether the absence of a nationality mark is acceptable.

- **Foreign registered aircraft:** If this certificate is referring to a foreign registered aircraft - the certificate is not, for that aircraft, a certificate of registration. Instead it is a permission to operate the aircraft in Australian territory for the purposes of regulation 101.099 of the Civil Aviation Safety Regulations 1998. **Note: this permission is not a substitute for an accreditation, remote operator's certificate or remote pilot licence.**

- The person holding this certificate should carry it on them at all times, as they may be required to produce it to an authorised person or to police. You can instead carry a copy of the registration, including in electronic form.

It is hereby certified that the above described aircraft (other than foreign aircraft) has been duly entered in the Australian Civil Aircraft Register in accordance with the Convention on International Civil Aviation dated 7th December 1944 and the Commonwealth of Australia Civil Aviation Safety Regulations.
